- Ohio Forest Tax Law  American Tree Farm Program  
 Environmental Quality Incentives Program (EQIP)  CAUV Tax Reduction

Property coordinates (report in WGS 84, degrees, min., sec.)

Latitude: N 39 17' 17.8031" Longitude W 82 11' 19.171"

### *Landowner Management Objectives*

1. The protection and preservation of wildlife, and the land from which it comes, and to do all things necessary and incidental thereto.  
The promotion of restoration and conservation of natural resources and education in conservation of all phases, with particular reference to forest, water, soil and wildlife; to promote good fellowship and good citizenship (and sportsmanship); to inculcate regard for the rights of others and respect for and obedience to law; to support a sane and effective conservation program for and by the state and to cooperate with the DNR of Ohio, and all other likeminded citizens and groups.
2. Improve the condition of the woodlands for the benefit of all wildlife species.

### *General Woodland Description*

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations.

Most of the woodland in Athens County is in areas of steep and very steep terrain. This terrain is well suited to trees.

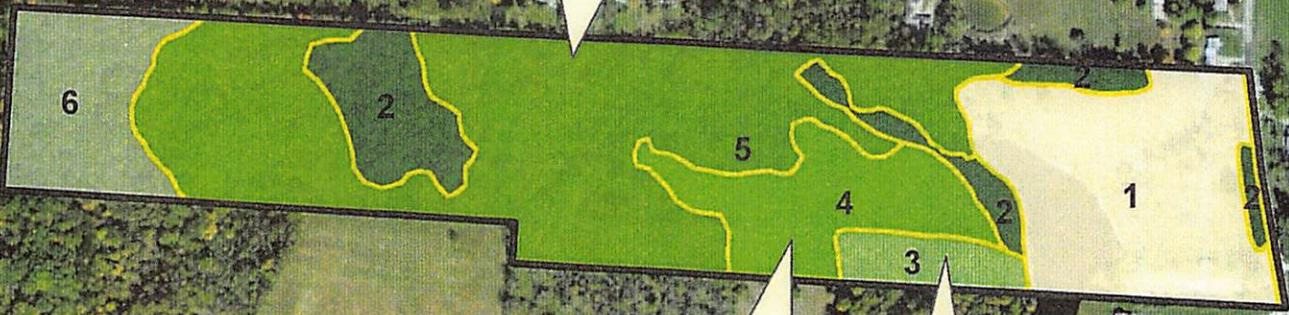

This tract and a separate parcel located on Enlow Road are part of a sportsman's association. These areas have been utilized since the 1960's for recreational and educational purposes. Activities include shooting, hunting, fishing hiking, educational activities and hosting events open to members and the general public.
