

Woodland Stewardship Management Plan

Owner	William J. and June L. Abbott		
Address	11 Smokehouse Lane		
	Mahwah, NJ 07430		
Phone	Case Number		
Cell	201-906-6847	Email Address	insureme@abbottins.net
County	Athens	Township/Village/City:	Sec 6 & 12 Ames Twp.
Parcel(s):	C010010012000, C010010014800		
Location:	Located at 17384 Wrightstown Rd.		

Woodland Stewardship Acreage:	75.52	Non-woodland Stewardship Acreage*:	31.13
Total Property Acres	106.65	<small>* Non-woodland acres for which stewardship recommendations are Made: Stands 1 & 2</small>	

This plan was written to qualify the landowner's woodland for the programs checked below:

- | | |
|---|---|
| <input type="checkbox"/> Ohio Forest Tax Law | <input type="checkbox"/> American Tree Farm Program |
| <input checked="" type="checkbox"/> Environmental Quality Incentives Program (EQIP) | <input checked="" type="checkbox"/> CAUV Property Tax Reduction |

Property coordinates (report in WGS 84, decimal degrees.)

Longitude: 39.206836 N Latitude: -82.093050 W

Landowner Management Objectives

1. Manage the property for all attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Improve the habitat for hunting white tail deer.

General Woodland Description

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations. Most of the woodland in Athens County is in areas of steep and very steep terrain. This is especially true for this farm.

Mr. & Mrs. Abbott purchased part of this Athens County farm in 2018 and purchased the remainder in September of 2020. Again, this land is for recreational use, mainly hunting. The previous landowner heavily harvested the timber on this portion of the farm also. Many of the old skid trails are still utilized for access into the woodlots. Emerald Ash Bores (EAB) has had a significant impact, killing all the Ash trees on this tract. Autumn Olive is a major issue affecting this portion of the farm.

Recommended Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2021, 2026, 2031	All Farm	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NA	Inspect & remark any portions of property lines with paint and signs necessary to help prevent illegal trespass. This task must be completed before this farm is eligible for enrolment into either OFTL or CAUV forestry property tax reduction programs.
2021-2031	3,5,6	<input type="checkbox"/>	<input type="checkbox"/>	39 acres total	These areas are heavily infested with Autumn Olive and other non-native invasive species. Work on reducing the large seed producing shrubs first to help reduce seed source availability. This will be an ongoing activity.
2021-2026	7, 8, 9	<input type="checkbox"/>	<input type="checkbox"/>	9 acres total	Cut grapevines from crop trees these areas. Light infestations if applying for EQIP – all vines need cut & treated. Work on the non-native invasive species identified in these stands.
2021 -2031	All Farm	<input type="checkbox"/>	<input type="checkbox"/>	NA	Maintain roads & trail into the wooded acres of the property for access. Work on reducing the Stiltgrass infestations.
2021 -2031	2	<input type="checkbox"/>	<input type="checkbox"/>	29ac total 5 ca work	Invasive plants around field & food plot edges. Autumn Olive Annually rotationally mow areas, maintain food plot areas
2026-2031	4 & 5	<input type="checkbox"/>	<input type="checkbox"/>	19 ac	Cut grapevines from crop trees this area. Cover entire stands treating scattered vines.
2026 & 2031	Whole Property	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester

Before entering a timber sale agreement, or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management plan
