

## Section 2b—Location & Area

### Athens County, Ohio

Ames Township

Section 18, Township 6 North, Range 13 West

### Parcel Identification Number(s) & Area

C010010016900

43.5 Acres (by new survey)

45.0 Acres (by auditor's website)

**Area of Forestland: 31.2 Acres** (Stands 1 through 4)

### Property Address & Access

The Stutzman property is located at 15185 Kuhns Road (County Road 94), Amesville, OH 45711. Access is by way of a good driveway, as well as by way of open fields and some good trails. There isn't any obstacle to managing the Stutzman property for commercial timber production due to access.

### Does the Landowner Reside on the Property?

Yes.

### Nearest City, Town, or Village

The nearest named place located within Athens County is Federal, which is located about 4/10 of a mile to the northeast by way of Kuhns Road. The nearest city, town, or village is Amesville, which is located about 5 road miles to the south by way of Kuhns Road and State Route 329.

### Location (Specific)

Amesville, OH, Quadrangle (1960) (USGS topographic map)

Location of (feature): House (approximate location)

Latitude: North 39,449 degrees

Longitude: West -81,995 degrees

Projection (Datum): \_\_\_\_\_

### Watershed

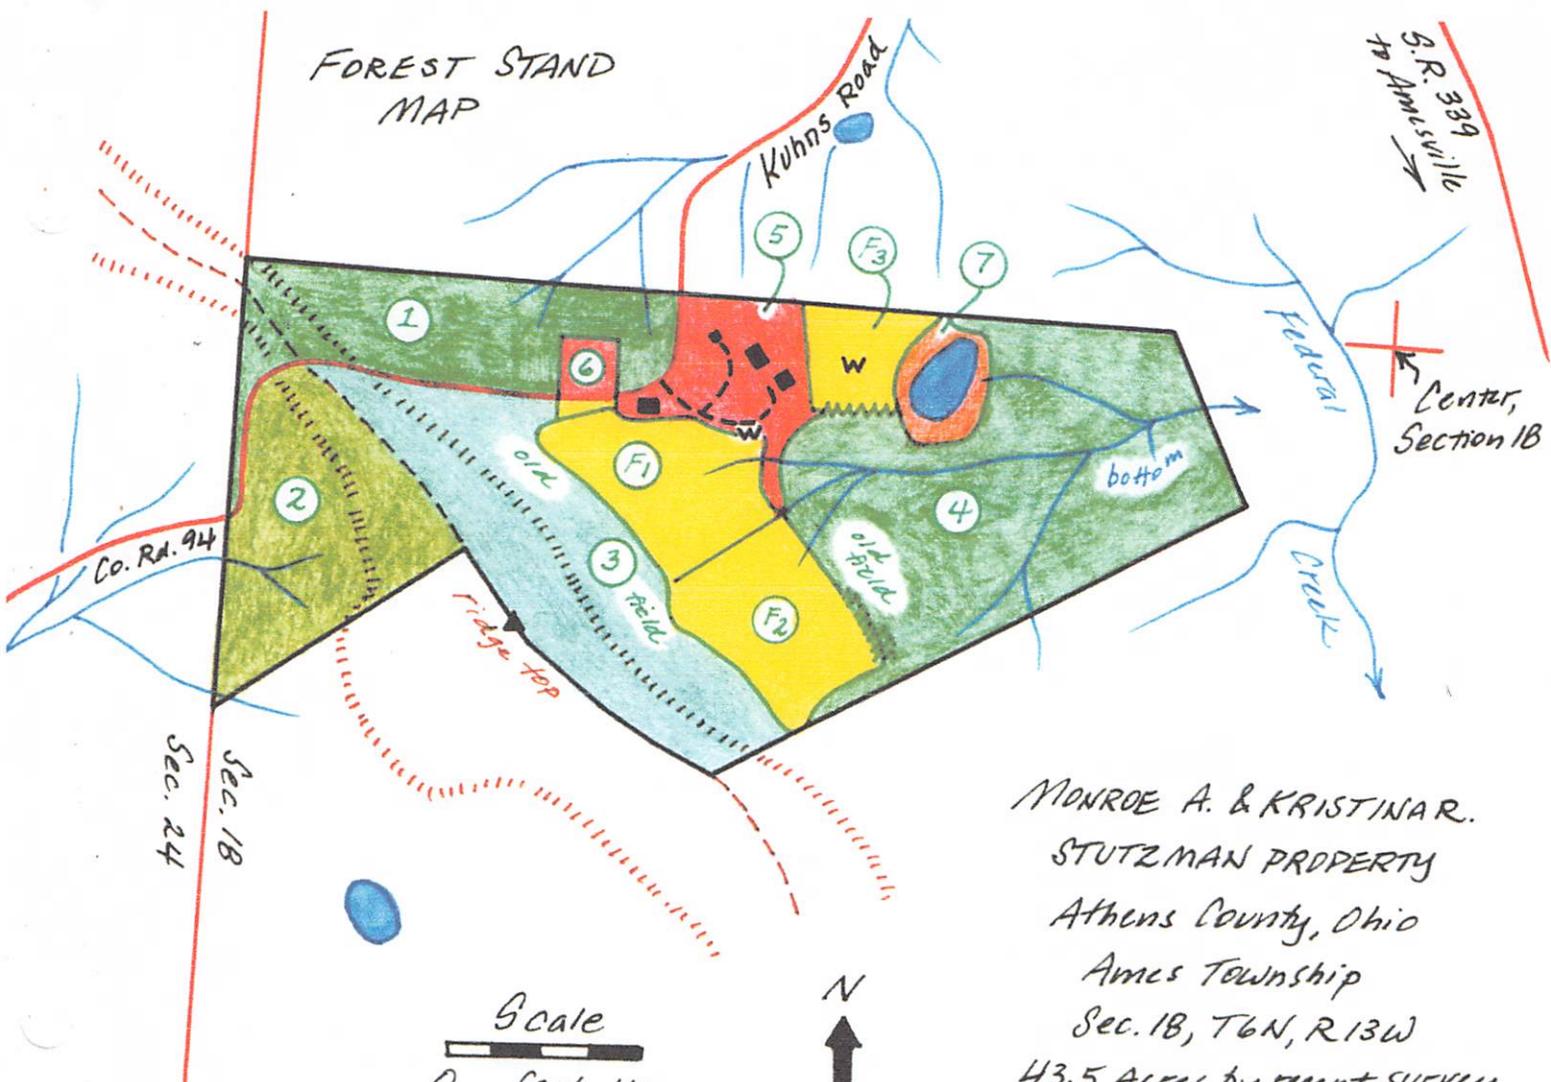

The Stutzman property is in two watersheds. Drainage on the west side of the main ridge is into Kasler Creek. Drainage on the east is into Federal Creek. Kasler Creek is a tributary of Federal Creek. Federal Creek flows into the Hocking River, which flows in turn into the Ohio River. So:

Unnamed streams → Kasler Creek and Federal Creek → Hocking River → Ohio River

## 5. Schedule of Management Activities

<i>Years</i>	<i>Stand(s)</i>	<i>Area (Acres)</i>	<i>Activity</i>	<i>Notes</i>
2025-2028	All	43.5	Locate and mark your property boundaries by applying brightly colored paint to trees and fenceposts along the perimeter at a distance of no more than 50 or 60 feet between marks.	
2025-2030	Wherever found	Wherever found	Do your best to eradicate the worst non-native, invasive species, specifically ailanthus or tree-of-heaven and bush honeysuckle.	
2025-2035	Wherever found	Wherever found	Cut, treat, pull, and otherwise control all other non-native, invasive species with a goal of eventual eradication.	
2025-2035	1-4	31.2	Cut grapevines that are growing in timber-producing and mast-bearing trees. You can leave grapevines that are growing in weed trees, scrub trees, non-crop trees, and dead trees. You can also leave poison-ivy vines and Virginia creeper vines, as these do not harm trees.	
Continued next page.				

2025-2035	1-4	31.2	Undertake timber stand improvement (TSI) work, to include weeding, thinning, crop tree release, and cull tree removal, all with the advice and assistance of a professional forester or well-qualified forestry technician. If possible, combine non-commercial cutting with a commercial improvement harvest of sawtimber. Be sure to work with a good forester in any effort at selling timber.
2034-2035	All	43.5	Update your forest management plan so as to maintain your status under CAUV.
