

Woodland Stewardship Management Plan

Owner	John Gilliom & Amy King	
Address	15473 Dutch Creek Road	
	Athens, Oh 45701	
Phone	740 592 2940	Case Numbers
Cell		Email Address amyaldenking@gmail.com
County	Athens	Township/Village/City: Sec 13 Ames Twp. Sec 18 Canaan Twp.
Parcel(s):	C010010059901, C010010059904, E010010044301, E010010044302, E010010044303	
Location:	Located along both sides of Dutch Creek Road	

Woodland Stewardship Acreage:	45.6	Non-woodland Stewardship Acreage*:	18.58
Total Property Acres	64.18	* Non-woodland acres for which stewardship recommendations are made.	

This plan was written to qualify the landowner's woodland for the programs checked below:

- | | |
|---|---|
| <input type="checkbox"/> Ohio Forest Tax Law | <input type="checkbox"/> American Tree Farm Program |
| <input checked="" type="checkbox"/> Environmental Quality Incentives Program (EQIP) | <input checked="" type="checkbox"/> CAUV Property Tax Reduction |

Property coordinates (report in WGS 84, decimal degrees.)

Latitude: 39.366243 Longitude: -81.997226

Landowner Management Objectives

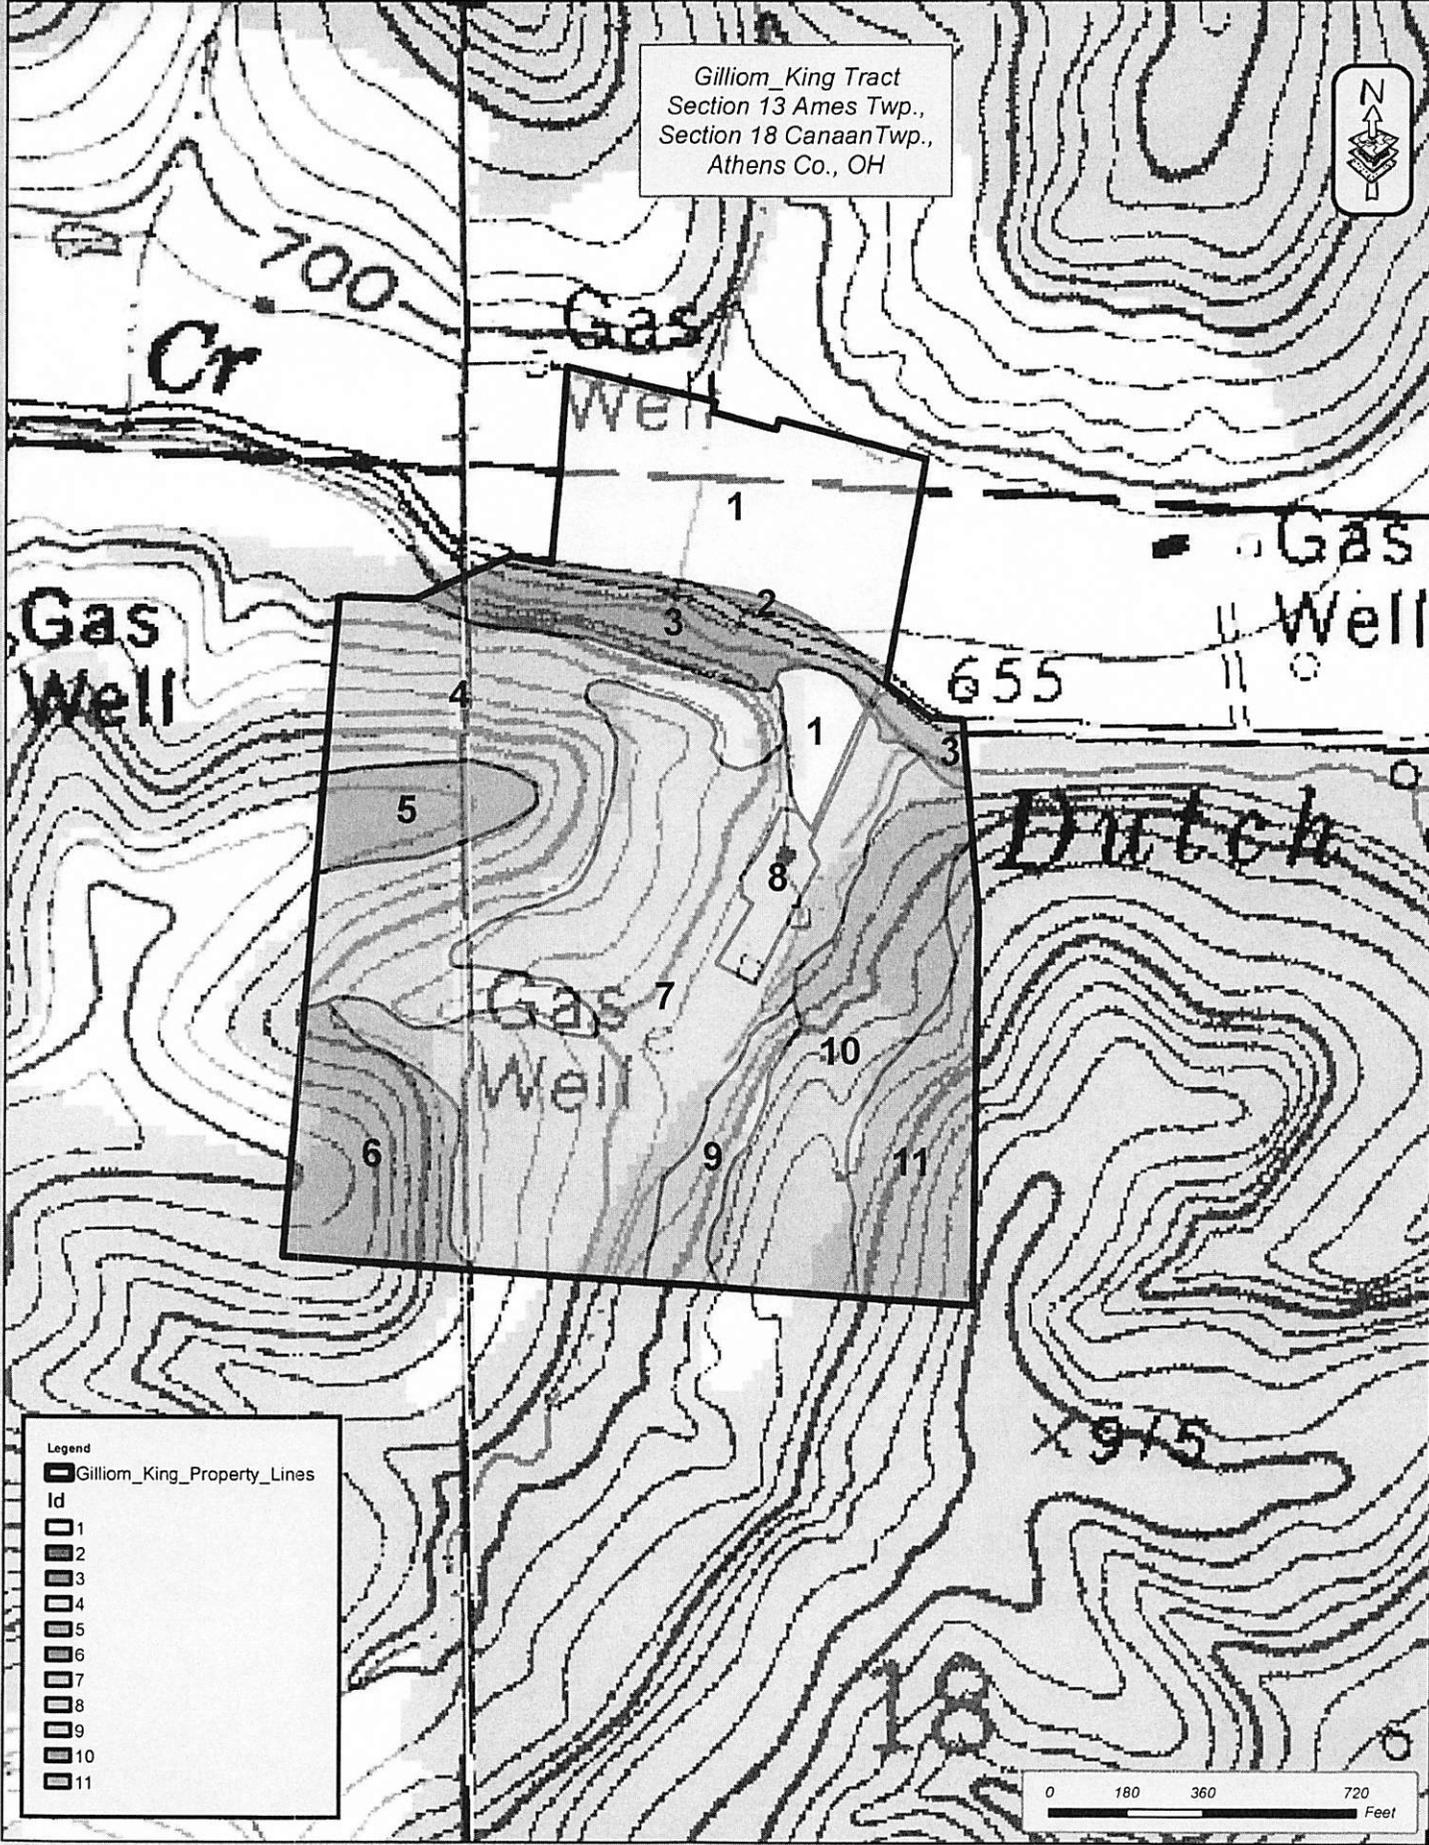

1. Manage the property for all attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Maintain the forest land in a productive and healthy condition for future generations. Limit the spread of non-native invasive plants, enhance forest ecosystem by planting a variety of trees, shrubs and native medicinal plants.

General Woodland Description

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations. Most of the woodland in Athens County is in areas of steep and very steep terrain. This is especially true for this farm.

John & Amy purchased this tract in 1991. They have spent countless hours "cleaning up" this farm. They have remodeled the farmhouse, constructed a pond, created and maintained trails, planted a variety of trees, developed a maple syrup operation, cut grapevines and worked on eradicating non-native invasive species. This property is a very diverse, actively managed ownership.

Recommended Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2019, 2024, 2029	All Farm	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NA	Inspect & remark any portions of property lines with paint and signs necessary to help prevent illegal trespass. This task must be completed before this farm is eligible for enrolment into either OFTL or CAUV forestry property tax reduction programs.
2020-2029	1	<input type="checkbox"/>	<input checked="" type="checkbox"/>	10+ ac	If not used for hay, consider planting all or parts with a mixture of hardwood/conifer trees & woody shrubs that are suited for site & soil conditions. Activities include site prep, species selection, plantings, seedling protective measures and tree care activities.
2020-2025	4,5,6,9	<input type="checkbox"/>	<input checked="" type="checkbox"/>	20+ acres total	Continue to cut grapevines from crop trees (walnuts/cherry/oak/maple) at the minimum. Light infestation rate if applying for EQIP – all vines need cut & treated, covering entire areas.
2019 -2029	All Farm	<input type="checkbox"/>	<input type="checkbox"/>	NA	Maintain trail into the wooded acres of the property for access
2019 -2029	10 & 11	<input type="checkbox"/>	<input type="checkbox"/>	12 acres total	Continue ongoing work in this area doing CTR work, cutting grapevines from “crop” trees and treating identified invasive species as time permits.
2019-2029	1 & 7	<input type="checkbox"/>	<input checked="" type="checkbox"/>	17 ac	Continue to rotationally mow the fields for hay production and maintaining grass cover for wildlife habitat diversity benefits.
2024 & 2029	Whole Property	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester	

Before entering a timber sale agreement, or conducting other forestry work that is not listed in your activity schedule, contact your State/County forester first to ensure compliance with your approved woodland stewardship management plan
