

Woodland Stewardship Management Plan

Owner Jerry & Patti McKibben
Address 18350 State Route 550
Amesville, Ohio 45711
Phone 740-448-2215 Case Number N/A
Cell _____ Email Address _____
County Athens Township: Bern
Parcel(s): D010010025900, D010010026800
Location: In part of Sections 34 & 34 Bern Twp. Approximately one mile east of Amesville on the north side of State Route 550.

Woodland Stewardship Acreage: 167 Non-woodland Stewardship Acreage*: _____
Total Property Acres 175.11 * Non-woodland acres for which stewardship recommendations are made.

This plan was written to qualify the landowner's woodland for the programs checked below:

- Ohio Forest Tax Law American Tree Farm Program
 Environmental Quality Incentives Program (EQIP) CAUV

Landowner Objectives

1. Provide income from future timber sales.
2. Sustainably manage woodland for future generations.
3. Manage for deer and turkey.
4. Maintain trial system.
5. Qualify for CAUV property tax.

General Woodland Description

The property is located approximately one mile east of Amesville and lies to the north of state route 550. The woodland is a combination of native hardwoods and agricultural land that is in the early stages of reverting to hardwoods. Two small pine plantations, one red pine and one white pine also can be found on the property. Common hardwoods found include white, northern red, black, & chestnut oaks, poplar, hickory, and sugar maple. Small sawtimber dominates the size class of trees found. A single tree selection and salvage harvest occurred on the property in 2017. Trees salvaged included ash due to the emerald ash borer, and white oak that were in decline due to a suspected fungal disease.

Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	Acres	Recommendations
2018	All	<input checked="" type="checkbox"/>	All	Establish and maintain permanent boundary markers.
2019-2020	3,4	<input checked="" type="checkbox"/>	14	Grapevine control as delineated on the map.
2021-2028	1,2,3,4,7	<input type="checkbox"/>	164	Consider autumn olive & ailanthus eradication.
2021-2028	1,2,3,4,7	<input type="checkbox"/>	150	Consider grapevine control.
	6	<input type="checkbox"/>	2	Consider thinning or leave alone.
		<input type="checkbox"/>		
	Whole Property	<input checked="" type="checkbox"/>	Next Site Visit – Woodland reviews are recommended at least once every five years, and plan updates once every ten years (to continue CAUV), based upon the date of the last woodland evaluation conducted by your forester	

Before entering a timber sale agreement, or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management plan
