Property coordinates (report in WGS 84, degrees, minutes, and seconds.)

Latitude: 39° 20' 03" N Longitude -81° 58' 29" W

Landowner Objectives

1. To improve woodland health and quality
2. To maintain and improve wildlife habitat
3. To improve the quality and quantity of timber on the property.
4. To manage for all the attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber product management and other compatible uses.

General Woodland Description

This property was purchased by the Houskas around 1988 and Raymond bought it in 1994. This property has been intensively managed, primarily for whitetail deer, continuously for around 30 years now. This property has about a half mile of road frontage along Buckley Run Road. There is an old gas well near the front of the property. The western edge of the property is reverted farm field.

SUPERIOR HARDWOODS OF OHIO, INC.

Comments: The goal for this stand is keep the valuable mast producing trees released and keep this area thick enough to be valuable bedding areas. This can continue to be done through hinge cutting and crop tree release as it has been in the past.

<u>Management Activity Schedule</u>					
Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2018-2023	1	X		66	Timber Harvest
