3. Manage the property in a sustainable manner for possible future timber production.

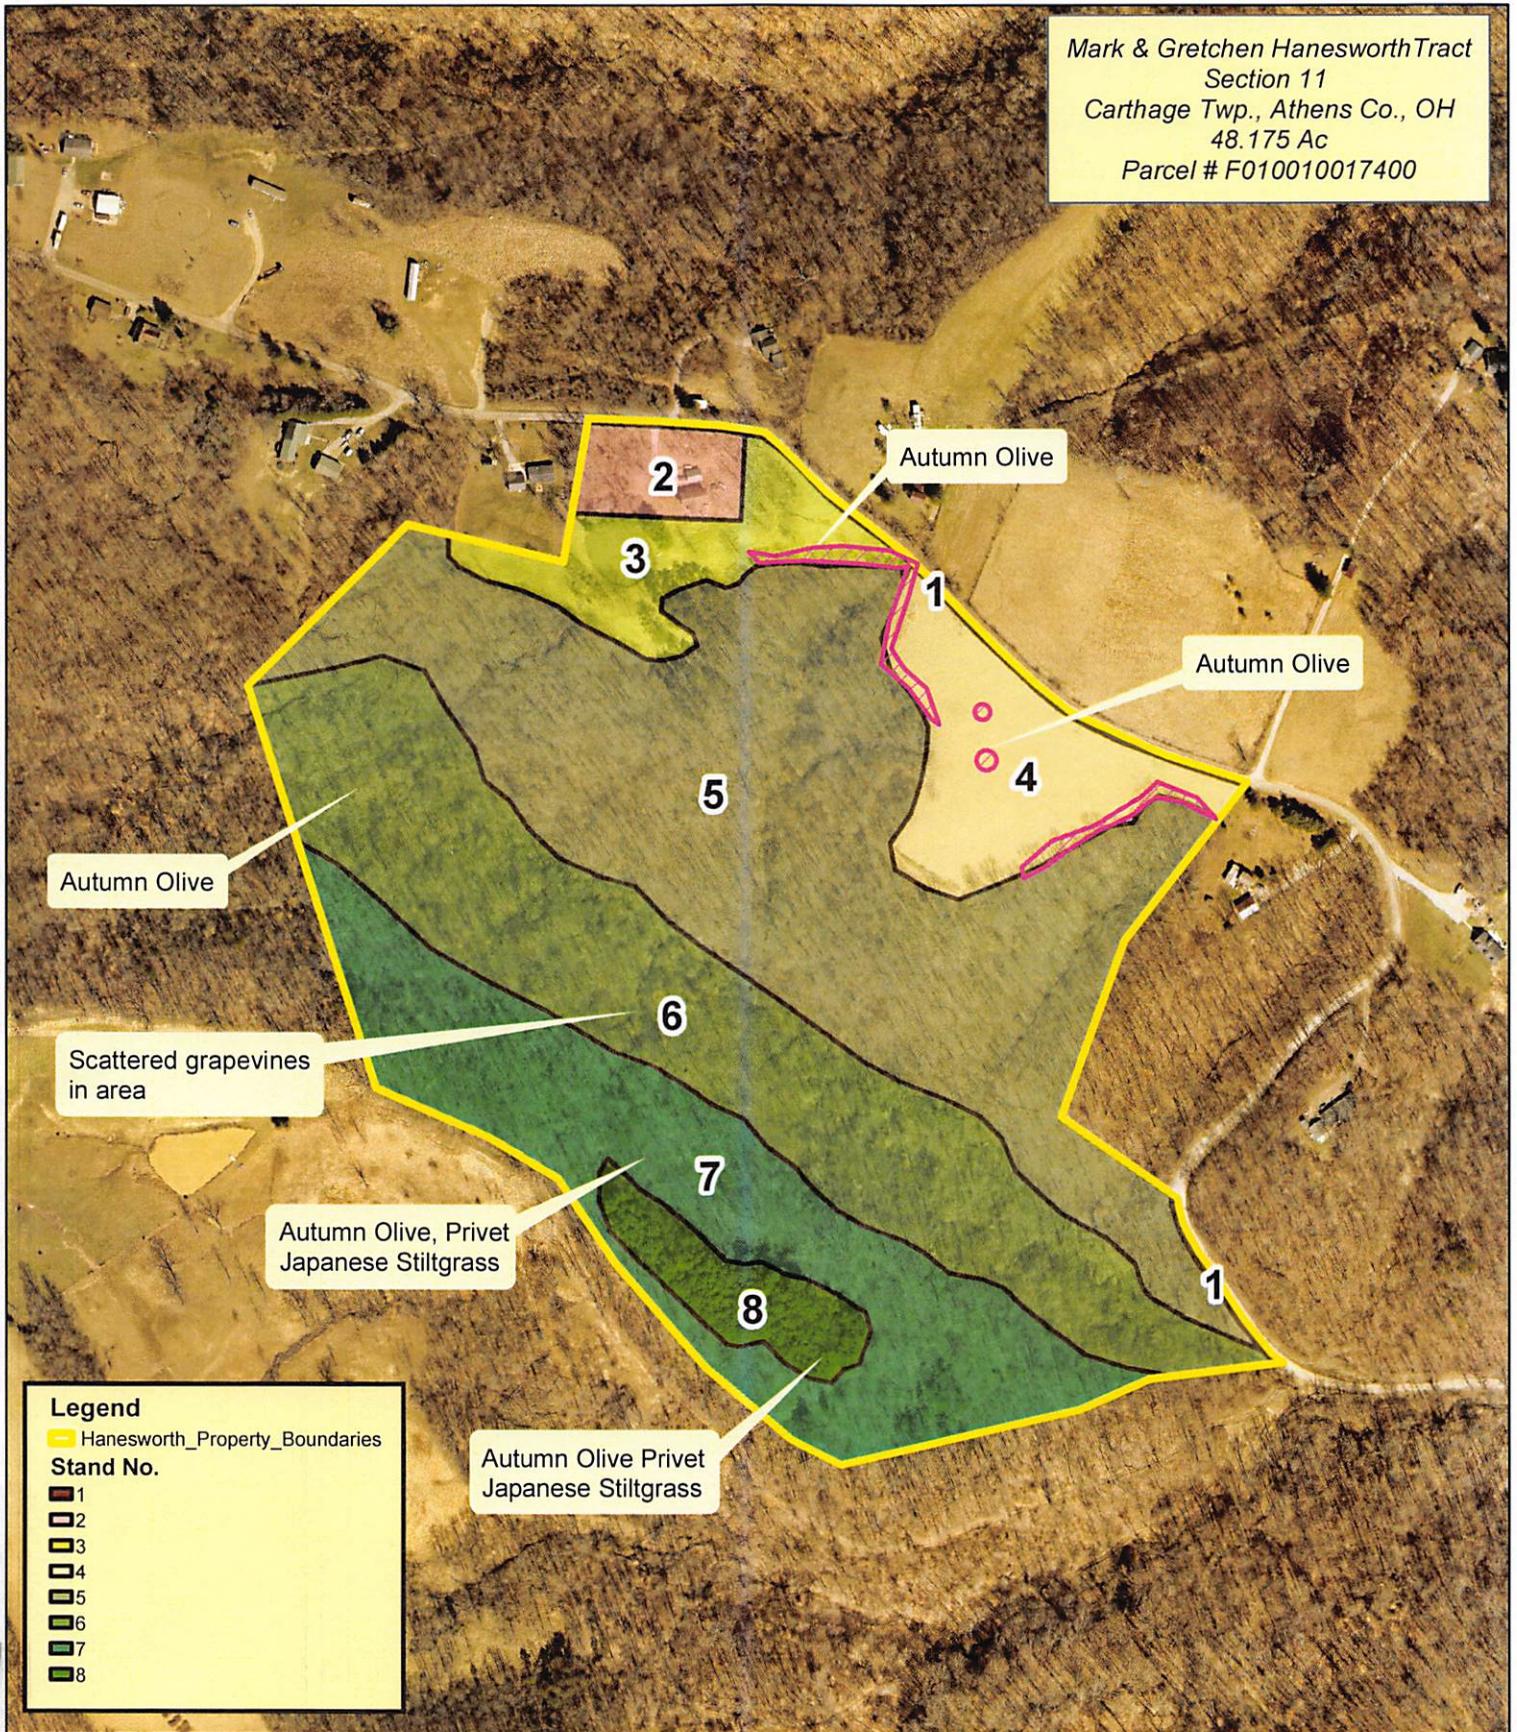

General Woodland Description

Mr. & Mrs. Hanesworth purchased this farm in 1971 and have resided on and farmed this land ever since. Over the years they have raised tobacco, corn, hay, vegetables and blueberries. Several timber sales have been completed. In 2016 they sold off the portion of the farm laying on the north side of Jordan Run Rd., retaining the 48.175 acres on the south side of the road. An EQIP project to treat Ailanthus was completed several years ago. Presently Autumn Olive is becoming established in and around the one remaining hay field.

Inventory Method: On Site Property Review
