Property coordinates (report in WGS 84, degrees, min., sec.)

Latitude: N 39 17' 17.8031" Longitude W 82 11' 19.171"

### ***Landowner Management Objectives***

1. The protection and preservation of wildlife, and the land from which it comes, and to do all things necessary and incidental thereto.  
The promotion of restoration and conservation of natural resources and education in conservation of all phases, with particular reference to forest, water, soil and wildlife; to promote good fellowship and good citizenship (and sportsmanship); to inculcate regard for the rights of others and respect for and obedience to law; to support a sane and effective conservation program for and by the state and to cooperate with the DNR of Ohio, and all other likeminded citizens and groups.
2. Improve the condition of the woodlands for the benefit of all wildlife species.

### ***General Woodland Description***

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations.

Most of the woodland in Athens County is in areas of steep and very steep terrain. This terrain is well suited to trees. Pulp, lumber & alternative forest products are important local commodities for Athens County.

This tract and a separate parcel located on Radford Road are part of a sportsman's association. These areas have been utilized since the 1960's for recreational and educational purposes. Activities include shooting, hunting, fishing hiking, educational activities and hosting events open to members and the general public.

### Recommended Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2016 -2017	all	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NA	Mark property lines with paint, redo every 5 years or as needed
2017 -2022	4b	<input type="checkbox"/>	<input checked="" type="checkbox"/>	24+	Cut scattered grapevines before starting CTR in these stand. Cover entire stand
2016 -2026	Entire tract	<input type="checkbox"/>	<input checked="" type="checkbox"/>	120	Work on eradicating non-native invasive species
2016- 2026	Entire Tract	<input type="checkbox"/>	<input checked="" type="checkbox"/>	NA	Maintain trails and create new ones
2016-2026	3	<input type="checkbox"/>	<input type="checkbox"/>	38	Annual mowing for invasive plant control – convert to ag use or plant part or entire areas with mass bearing trees & woody shrubs
2016 -202	Entire Tract	<input type="checkbox"/>	<input type="checkbox"/>	NA	Establish food plots and construct nesting structures
2021 & 2026	Whole Property	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester	

Before entering a timber sale agreement, or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management plan
