

## *Woodland Stewardship Management Plan*

Owner	Glenna Grim etal c/o Ms. Robin Wooten		
Address	1667 Grim Road		
	Athens, Ohio 45701		
Phone	Case Number		
Cell	740-590-1965	Email Address	
County	Athens	Township/Village/City: Alexander Twp. Section 3	
		Lodi Twp. Sec 19,25,26,27,32	
		Athens Twp. Section 2	
Parcel(s):	See attached sheet		
Location:	Various locations in Alexander, Lodi & Athens Townships of Athens County		

Woodland Stewardship Acreage:	324.6	Non-woodland Stewardship Acreage*:	335.7
Total Property Acres	660.3	<small>* Non-woodland acres for which stewardship recommendations are made. Stands: 4 5 14 15 16 17 23 24 27 28 29 32 33 34 35 36 38 39 40 41 42 43</small>	

This plan was written to qualify the landowner's woodland for the programs checked below:

- |   |   |
|---|---|
| <input type="checkbox"/> Ohio Forest Tax Law  | <input type="checkbox"/> American Tree Farm Program             |
| <input checked="" type="checkbox"/> Environmental Quality Incentives Program (EQIP) | <input checked="" type="checkbox"/> CAUV Property Tax Reduction |

Property coordinates (report in WGS 84, decimal degrees.)

Longitude: 39.218407 N Latitude: -82.047908 W

### *Landowner Management Objectives*

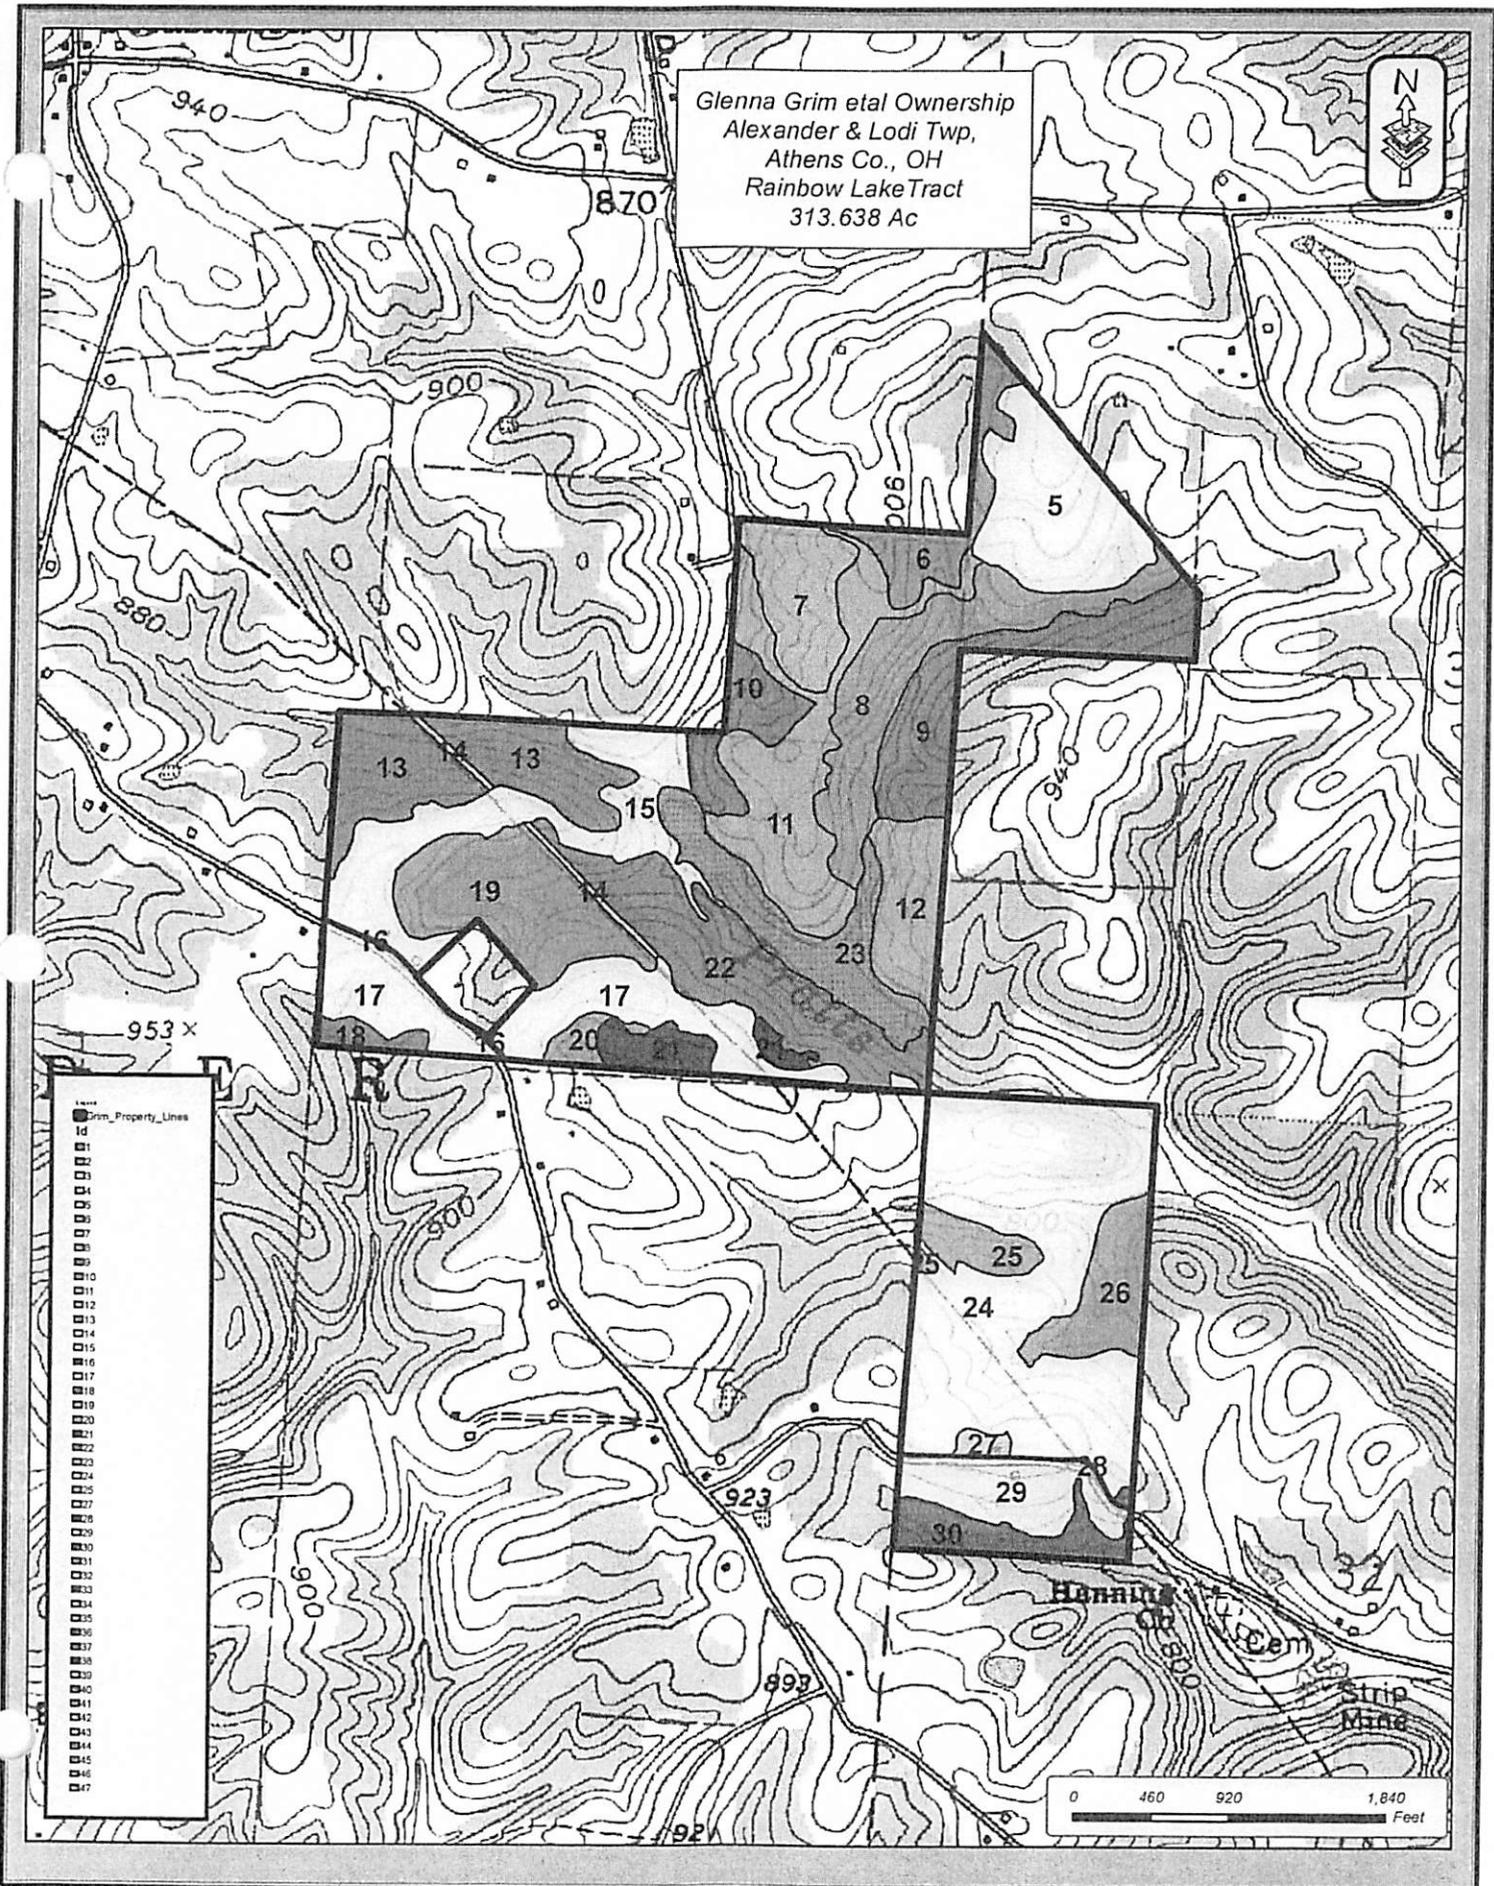

1. Manage the property for all attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Improve the productivity of the various ownerships that comprise this farm. Maintain the forest land in a productive and healthy condition.

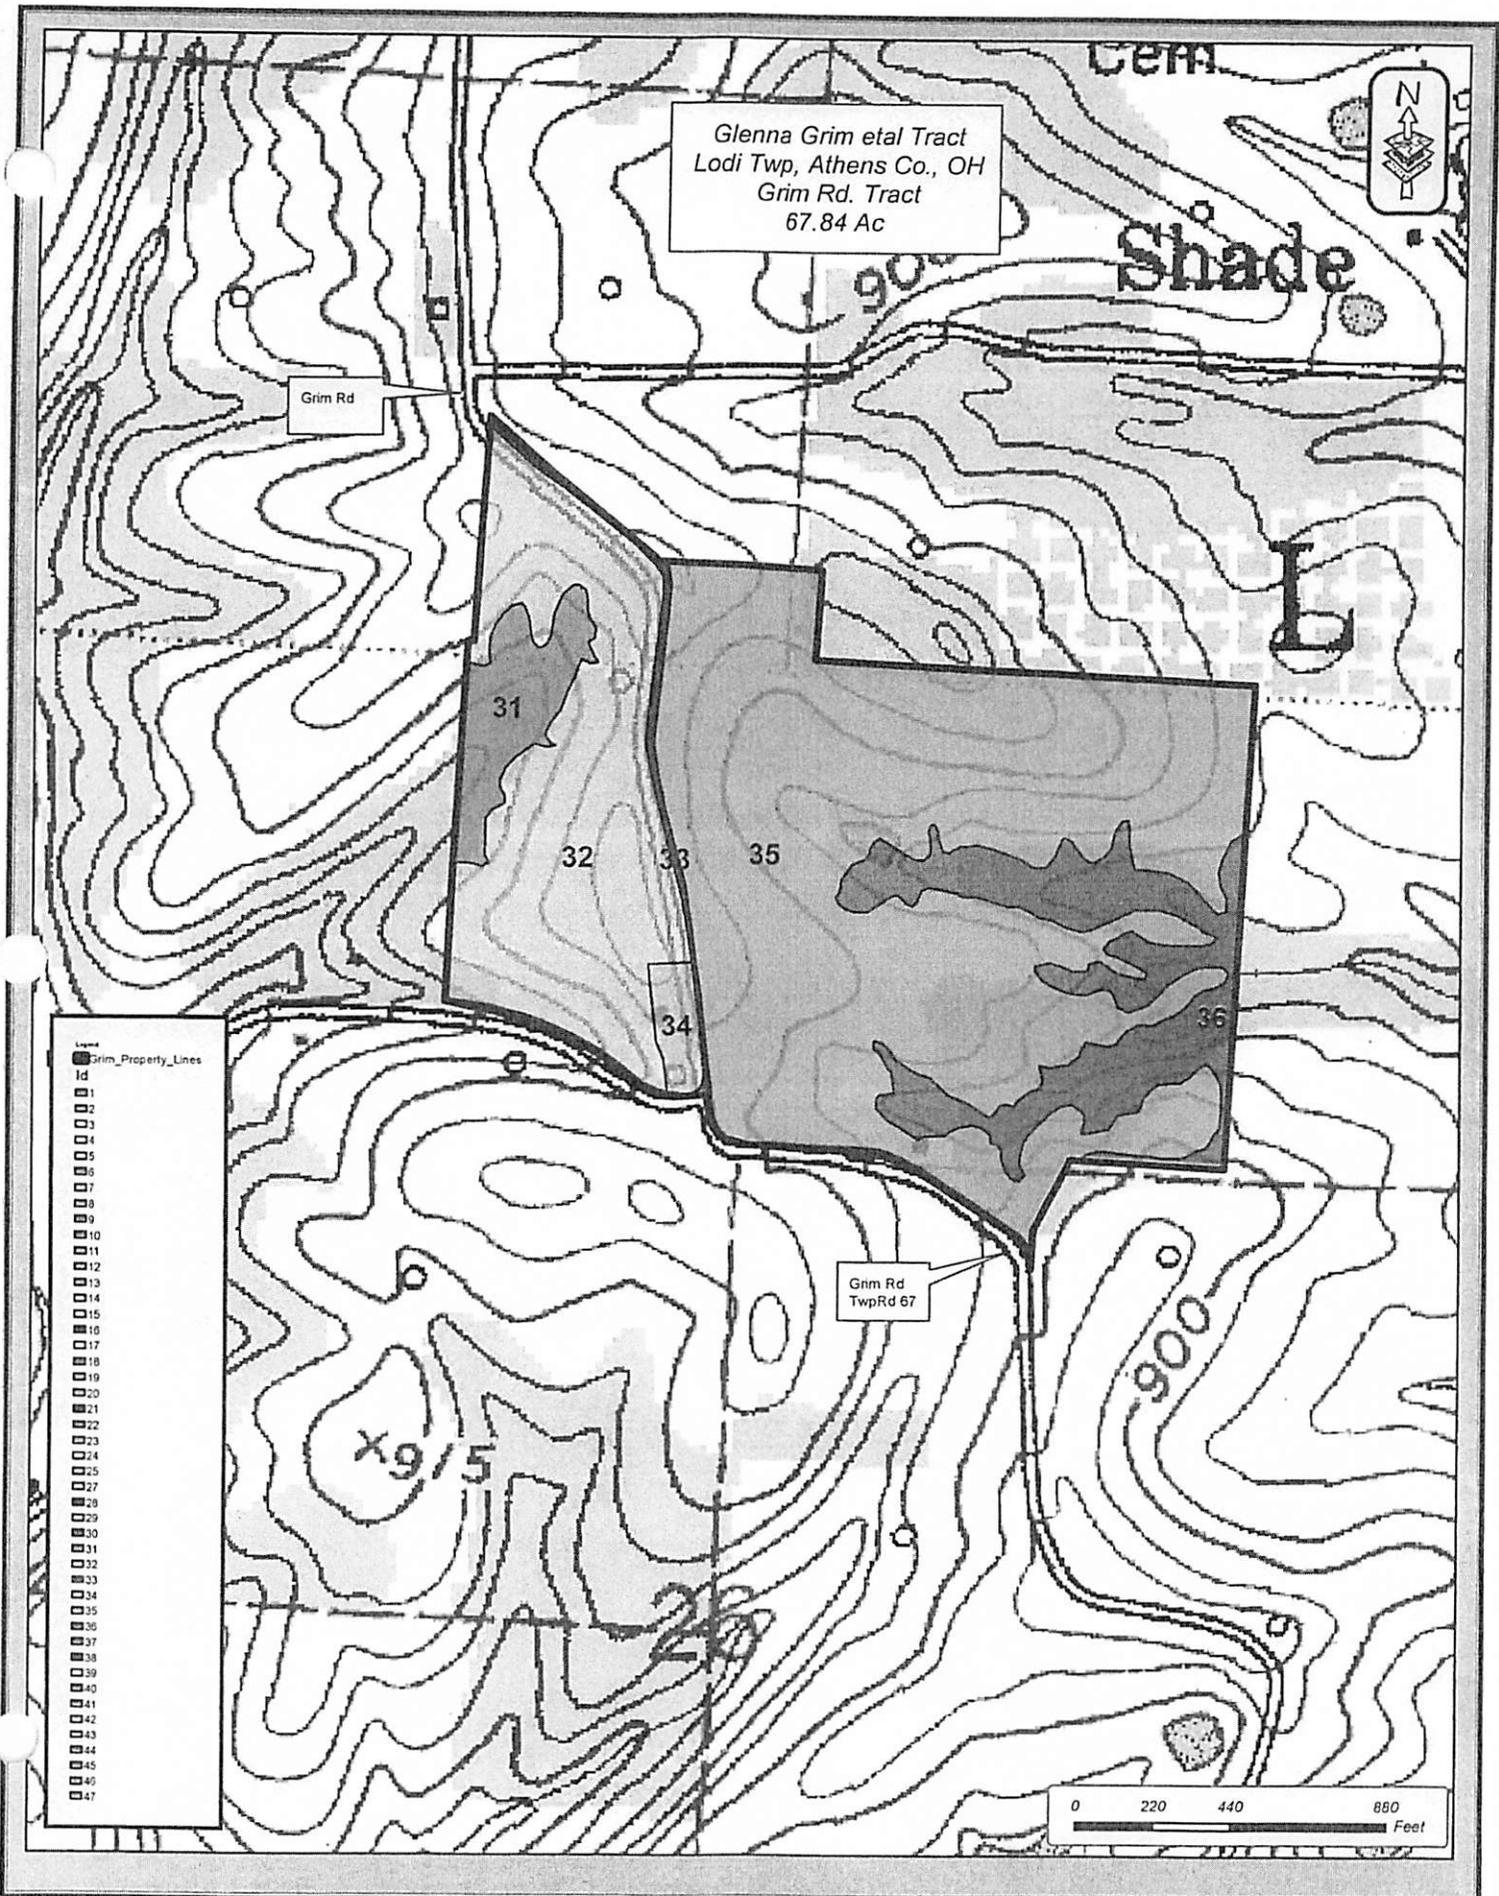

### *General Woodland Description*

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations. Most of the woodland in Athens County is in areas of steep and very steep terrain. This is especially true for this farm.

The current Grim ownership is a combination of farms that were acquired by Glenna & Richard (deceased) over the years. Most of the tract were lands that could be farmed, other tracts were old strip-mined lands that needed to be reclaimed. Mr. Grim constructed numerous water impoundments around the County, one being Rainbow Lake on their own property.

## Recommended Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2020, 2025, 2029	All 4 separate farms	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NA	Recommend painting property lines in wooded areas to help prevent illegal trespass- remark every 5 years or as needed to be easily visible. If CAUV Forestry application is filed - this must be completed. (not ag requirement)
2019-2029	1,3,5,10, 13,18,19 25,30,36 41	<input type="checkbox"/>	<input checked="" type="checkbox"/>	15-20 ac total	Treat identified patches of Ailanthus identified on all 4 farms Stands 13 & 19 have heavy infestations that will require repeat work over a several year time period. Start with treating seed producing trees first.
2020-2029	2,9,19, 22,44	<input type="checkbox"/>	<input type="checkbox"/>	100+	Work on cutting grapevines from crop trees in these areas. Cover the entire stands. Light infestations.
2017 -2027	All 4 separate farms	<input type="checkbox"/>	<input type="checkbox"/>	50+ac	Work on the eradication of the Autumn Olive around the forestland edges, fence line and Twp. Rd. areas.
2019 -2029	Any ag areas not going to be utilized	<input type="checkbox"/>	<input checked="" type="checkbox"/>	?	If open fields are not going to be cut for hay, bush hogged or pastured, consider planting to trees. Species selected should be site specific and preference to mass producing species.
2019 -2029	All 4 separate farms	<input type="checkbox"/>	<input type="checkbox"/>	NA	Continue to maintain trails for access into forest stands. Possibly create some new stands into the large wooded areas. (ST 1 & 44)
2020 -2029	40	<input type="checkbox"/>	<input checked="" type="checkbox"/>	NA	Possible fencing projects to limit grazing in woodlot
2026 -2029	44	<input type="checkbox"/>	<input type="checkbox"/>	50ac total	Possible Timber sale if landowner desires could be done once the grapevines have been cut.
2025 & 2029	Whole Property	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester

Before entering a timber sale agreement or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management plan.
