

Woodland Stewardship Management Plan "Shade Tract"

Owner Ms. Jinx Statler Beachler
Address C/O Beachler Properties 1620 E Broad St Suite 101
Columbus, OH 43203
Phone _____ Case Number _____
Cell 614-439-0255 Email Address jinxbeachler@usa.net
County Athens Township/Village/City: Sec 27 Fr 33, Rome Twp.
Parcel(s): K010010056104
Location: This property is located at 8299 McGur Rd.

Woodland Stewardship Acreage: 14.34 Non-woodland Stewardship Acreage*: 3.2
Total Property Acres 17.54
* Non-woodland acres for which stewardship recommendations are made.

This plan was written to qualify the landowner's woodland for the programs checked below:

- Ohio Forest Tax Law American Tree Farm Program
 Environmental Quality Incentives Program (EQIP) CAUV

Property coordinates (report in WGS 84, decimal degrees.)

Longitude: N39.310985 Latitude: W -81.931064

Landowner Management Objectives

1. Manage the property for all attributes and opportunities that exist in the natural undeveloped ecosystem, which is of interest to the owner. These include: recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Maintain and improve the productivity of this farm.

General Woodland Description

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Seasonal wetness, droughtiness, flood hazard, and the moderately slow to very slow permeability of some soils also limit land use.

Athens County is in the central hardwood forest region. Most of the woodland in Athens County is in areas of steep and very steep terrain. This terrain is well suited to trees.

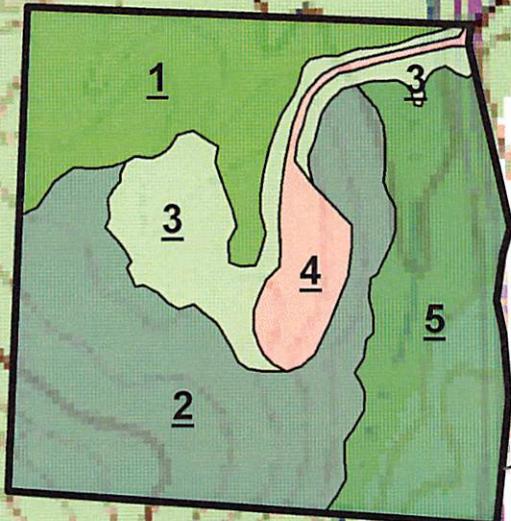

Jinx, and her now deceased husband, purchased this tract in April of 1996. Some of the site improvements they completed are; constructed a home, built a pond and did forest improvement projects. Overall, the forest stands are fairly young and need minimal attention at this time. Autumn Olive is becoming established along the edges of Stand 3 and grapevines in the "crop" trees in Stand 2 are the only issues that need addressed in this 10 year Plan.

Recommended Management Activity Schedule

| Year(s) Suggested | Mgmt. Unit | Required Task? | EQIP Practice? | Acres | Recommendations |
|---------------------------------|-------------------|-------------------------------------|--------------------------|---------------------|---|
| 2018 -2019 then as needed | all | <input checked="" type="checkbox"/> | <input type="checkbox"/> | NA | Continue to maintain the orange paint on the property lines and redo every 5 years, or as needed. Neighbor has marked with blue paint & signage. South line is a new woven wire fence. |
| 2018 -2022 | 1, 2 & 3 | <input type="checkbox"/> | <input type="checkbox"/> | 9 ac | Work on the eradication of non-native invasive species discovered, especially the Autumn Olive & Barberry, cover entire stands because of identified scattered patches present. Repeated applications will be necessary |
| 2018- 2024 | 1 & 2 | <input type="checkbox"/> | <input type="checkbox"/> | Cover entire stands | Cut grapevines scattered throughout these stands –light infestation – especially from the future “crop” trees. |
| 2018 -2028 | all | <input type="checkbox"/> | <input type="checkbox"/> | | Continue to maintain trails the throughout property. Mow at least annually. |
| 2018 -2028 | all | | | | Continue hunting to help control herd size of the Whitetail Deer |
| 2023 & 2028 | Whole Property | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester |

Before entering a timber sale agreement, or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management plan
