

Woodland Stewardship Management Plan

Owner Woodland Renewal Society, LLC
Address PO Box 186
Athens, Ohio 45701
Phone _____ Case Number _____
Cell 740-591-4738 Email Address dfunk@capstonecompany.com
County Athens Township/Village/City: Trimble Twp. Section 7
Parcel(s): _____
Location: Tract is located along Jacksonville Rd near the Jacksonville Water Treatment Plant

Woodland Stewardship Acreage: _____ Non-woodland Stewardship Acreage*: 2.268
28.92
Total Property Acres 31.488 * Non-woodland acres for which stewardship recommendations are made. Stand 3

This plan was written to qualify the landowner's woodland for the programs checked below:

- Ohio Forest Tax Law American Tree Farm Program
 Environmental Quality Incentives Program (EQIP) CAUV Property Tax Reduction

Property coordinates (report in WGS 84, decimal degrees.)

Longitude: 39.468634 Latitude: -82.080957

Landowner Management Objectives

1. Manage the property for all attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Improve the productivity of this woodlands for future generations. This involves limiting activities on the ground and working to eradicate non-native invasive species of trees & shrubs.

General Woodland Description

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Seasonal wetness, droughtiness, flood hazard, and the moderately slow to very slow permeability of some soils also limit land use.

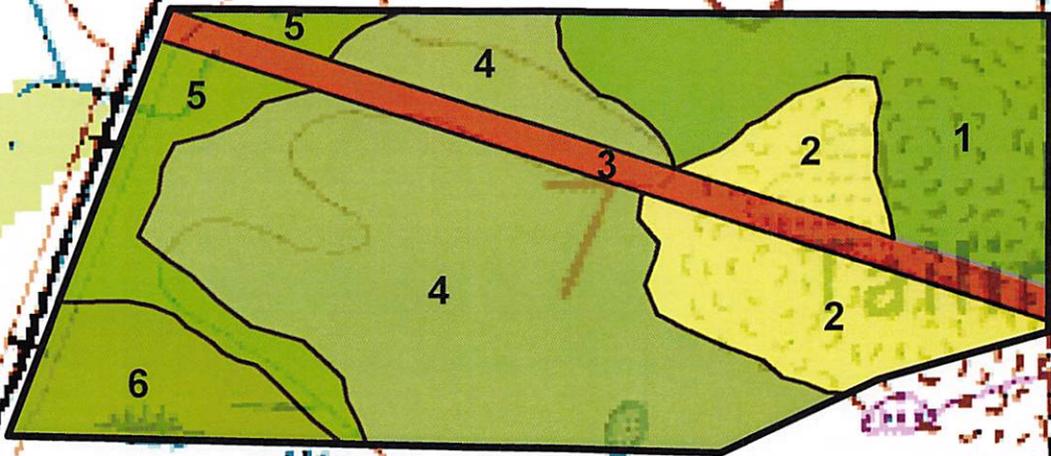

Athens County is in the central hardwood forest region. Most of the woodland in Athens County is in areas of steep and very steep terrain. This terrain is well suited to trees.

Misters Funk & Niese purchased this parcel from Agri Soils, Ltd. and it is held in the entity of *Woodland Renewal Society, LLC*. This parcel was part of a larger ownership that was the operational site for a large underground mining operation in the 1930's thru the 1950's. Coal refuse piles are located on this parcel, some areas still acidic barren land. Most of this tract is young timberlands that has regenerated upon abandonment of the mining operations.

Recommended Management Activity Schedule

Year(s) Suggested	Mgmt. Unit	Required Task?	EQIP Practice?	Acres	Recommendations
2021, 2026 & 2030	All	<input checked="" type="checkbox"/>	<input type="checkbox"/>	NA	Inspect & mark any portions of property lines with paint and signs necessary to help prevent illegal trespass. This task must be completed before this farm is eligible for enrolment into either OFTL or CAUV forestry property tax reduction programs.
2021 -2030	All	<input type="checkbox"/>	<input type="checkbox"/>	NA	Work on restricting access into this parcel by off road vehicles, not associated with Owners activities.
2021 -2030	2	<input type="checkbox"/>	<input checked="" type="checkbox"/>		Contact ODNR Div. of Mineral Resources Management about possible restoration project on portion of this area that is currently exposed coal slag. Maybe tree plantings??
2022 -2030	1 & 5	<input type="checkbox"/>	<input checked="" type="checkbox"/>	5+ ac	Work on cutting grapevines from trees in these areas – cover entire stands. This work could be done in conjunction with other TSI activities: Non-native woody shrub eradication if applying as an EQIP Project. Minimal activities in these areas should be cutting the grapevines from all potential “crop” trees
2023 -2030	4	<input type="checkbox"/>	<input checked="" type="checkbox"/>	13 ac Total 5+ ac need work	Work on treating scattered non-native invasive species identified in this area– cover entire stand looking for scattered plants.
2025 & 2030	Whole Property	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Next Site Visit – Woodland reviews are recommended at least once every five years, and no more than ten years, based upon the date of the last actual woodland evaluation conducted by your forester

Before entering a timber sale agreement or conducting other forestry work that is not listed in your activity schedule, contact your forester first to ensure compliance with your approved woodland stewardship management.
