Landowner Objectives

1. Our objectives are to manage the property for all attributes and opportunities that exist in the forest ecosystem that is in our interest including recreation, wildlife management, soil and water management, forest protection, timber product enhancement and other compatible conservation uses: We want to conserve the soil from water erosion by adhering to "Ohio's Best Management Practices" and other soil conservation techniques.
2. Leave this forestland in better condition for future generations.
3. Remove or hinder "Invasive Species".
4. Harvest timber to improve the forest.
5. To select tree species best suited to the soil and site's capability.
