

Woodland Stewardship Management Plan

Owner Jason M. & Cinda L. Morosko
Address 7714 Llewellyn Road.
New Marshfield, OH 45766
Phone 740 664-4805 Case Number _____
Cell _____ Email Address cmorosko@gmail.com
County Athens Township/Village/City: Sec.8 Waterloo Twp.
Parcel(s): N0100100006500
Location: Located at junction of Gun Club Rd. & Llewellyn Rd.

Woodland Stewardship Acreage: 32.2 Non-woodland Stewardship Acreage*: 3.2
Total Property Acres 35.4 * Non-woodland acres for which stewardship recommendations are made.

This plan was written to qualify the landowner's woodland for the programs checked below:

- Ohio Forest Tax Law American Tree Farm Program
 Environmental Quality Incentives Program (EQIP) CAUV Tax Reduction

Property coordinates (report in WGS 84, decimal degrees)

Latitude: N 39.315389 Longitude W -82.206940

Landowner Management Objectives

1. Protect & manage the property for all attributes and opportunities that exist in a forest ecosystem of interest to the owner including recreation, wildlife management, soil and water management, forest protection, timber products management, and other compatible conservation uses.
2. Improve the overall condition of the woodlands by reducing the impact of non-native invasive species and establishing a variety of trees/shrubs.
3. Manage the property as a long term investment that will increase in value.

General Woodland Description

Athens County is located in the unglaciated hill country of southeastern Ohio. Slope and erosion hazard is the major land use limitations. Athens County is in the central hardwood forest region. Major forest types include Appalachian hardwoods, bottomland hardwoods, oak-hickory, successional, Virginia pine, and white pine plantations.

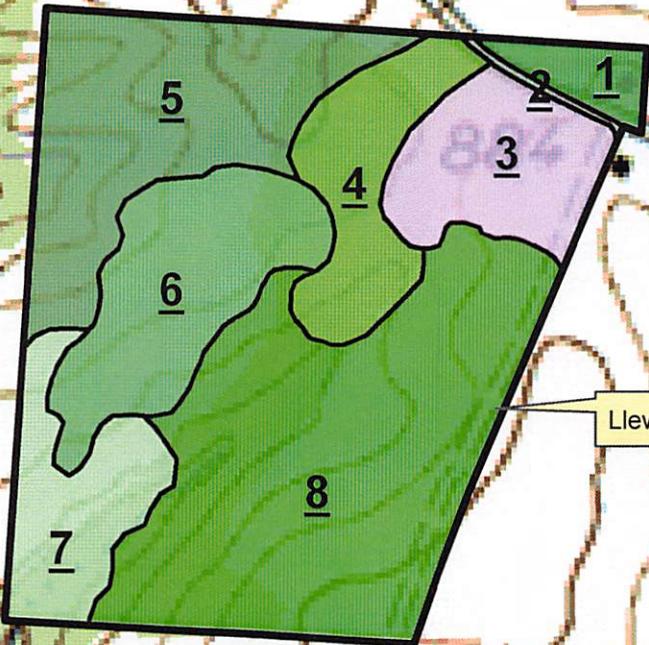

Most of the woodland in Athens County is in areas of steep and very steep terrain. This terrain is well suited to trees. Pulp, lumber & alternative forest products are important local commodities for Athens County.

Cinda purchased this tract in June 2007. The previous landowner had harvested the entire tract. Overall, this parcel has issues with non-native invasive species and grapevines having a negative impact on the overall health of this forested tract.
