\*NOTE: The 3/4" square iron was found undisturbed in 2002 by Leonard Swoyer P.S. 6765 before Ohio University golf course construction disturbed it. I rehabilitated it to its original position using Mr. Swoyer's field data and a plat by Mr. Swoyer for a proposed easement for golf course encroachment onto the lands of Mr. Weisenbach based on Mr. Swoyer's control monuments which I found in the course of this survey.

Note 1) unless otherwise noted, all set iron pins are 5/8 inch diameter rebar 30 inches in length and capped with a yellow plastic identification marker inscribed: "TOM TRANTINA RLS-8320"

Note 2) all calls for ad joiners cited above and deeds shown in parenthesis are given to fulfill County Auditor and County Engineer's requirements and do not necessarily imply an acceptance of the content of said deeds or the seniority of the same.

The above description was prepared under the supervision of Thomas Trantina, Registered Professional Land Surveyor No. 8320 and based on a survey performed by Southeastern Land Surveys dated January 2, 2010.

Subject to all deeds and right of ways, reservations, restrictive and protective covenants, utility easements and oil, gas and mineral leases of record in the chain of title in Athens County.
